2016 Newsletter #8

Welcome to our eighth newsletter of 2016. Summer has arrived and that means topwater season. We share our pro staff picks for topwater rods. The Pryme rods are back in stock now and continue to be strong sellers. We also give you a sneak peek at an exciting new rod we have coming at the annual ICAST show next

Topwaters are often a great choice in June across the country! Popper style, walking baits, frogs and buzz toads are all working. We highlight some of the key rod models our pro staff use for their top water fishing. Similar rods, but each prefers a different series for their topwaters.

The rods our pros choose for topwater.

Bottom Feeder SERIES

Catfishing is great in the summer months. Check out our Bottom Feeder series for the ultimate catfish rods. The quality and appearance you expect from Denali at a great price!

The Myriad walleye rods have two wins already and multiple high finishes in the NWT. Comments from anglers using the new Myriads

2nd Place John Gillman

"The Myriad Walleye Trolling Rods by Denali continue to amaze. The Myriad Trolling rods have a very forgiving action but plenty of backbone which allowed us to keep the perfect amount of pressure on our fish once we are hooked up. They are absolute the best Walleye Trolling Rods I have ever used."

3rd Place Scott Cisewski

"Being a First Year Pro to the Cabela's National Walleye Tour, I purchased several of the newly designed Denali Myriad 8'6" trolling rods. The firm spine, unique eyelet design, and soft tip rods allowed me to catch the largest 5 fish walleye limit on the second day of the Lake Winnebago Tournament to capture 3rd Place."

8th Place Wayne Van Dyke (Current NWT AOY Point Leader)

"I will say it again, the Myriad Trolling Rod Innovative Guide Design utilizes the entire rod and results in extremely smooth line flow. I agree the Myriads have a great Balance of Sensitivity and Flexibility, yet the perfect amount of backbone to handle the largest walleye."

Winner of the Cayuga
fantasy contest wins a
Lithium L842CB, 7' Medium
which makes a great
topwater rod.
